# THE 6<sup>th</sup> NEURO TACO MEET-UP

---

We want to bring together researchers from the many neuroscience labs around Campus Johannstadt. We are looking forward to getting to know interesting people and exciting research projects from a wide range of neuroscience research areas.

The next presenter will be Beate Knauer, who is running the Electrophysiology Facility of the CRTD. The talk will introduce you to the services of the facility, with special focus on neuroscientific projects. The presentation will be followed by a Q&A session. The event will conclude with a gathering for informal networking.
